Ideation Canvas	Group ID: E-23	Sheet No: 7
Group Name: MindCraft.	Project Title: "Quietify"	

People

Students, Teachers and Librarian

Activities

- Reading and self-study
- Group discussions / doubt clearing
- Moving chairs and books
- Entering and exiting library
- Using phones or laptops

Situation/Context/Location

Situation:

- Library during exam hours
- Crowded study halls
- Quiet reading zones
- Rainy days (background noise)
- Peak study time vs normal hours

Props/Possible Solutions

- Microphone-based noise sensor device
- LED display showing **“QUIET” / “NOISE”**
- Color indicator (Green = quiet, Red = noisy)
- Adjustable noise threshold (around 60 dB)
- Automatic alert system (no human control needed)
- Wall-mounted or ceiling-mounted device
- USB powered / low power consumption
- Central monitoring option (for librarians)
